

The Deck Line

Beauty and protection from season to season

From deep cleaner to finish and oil to cleaning and care – The LOBA Deck Line provides a complete system for new and old outdoor wood or WPC (composite decking). With LOBA, your customer's favorite spot will withstand all weather.

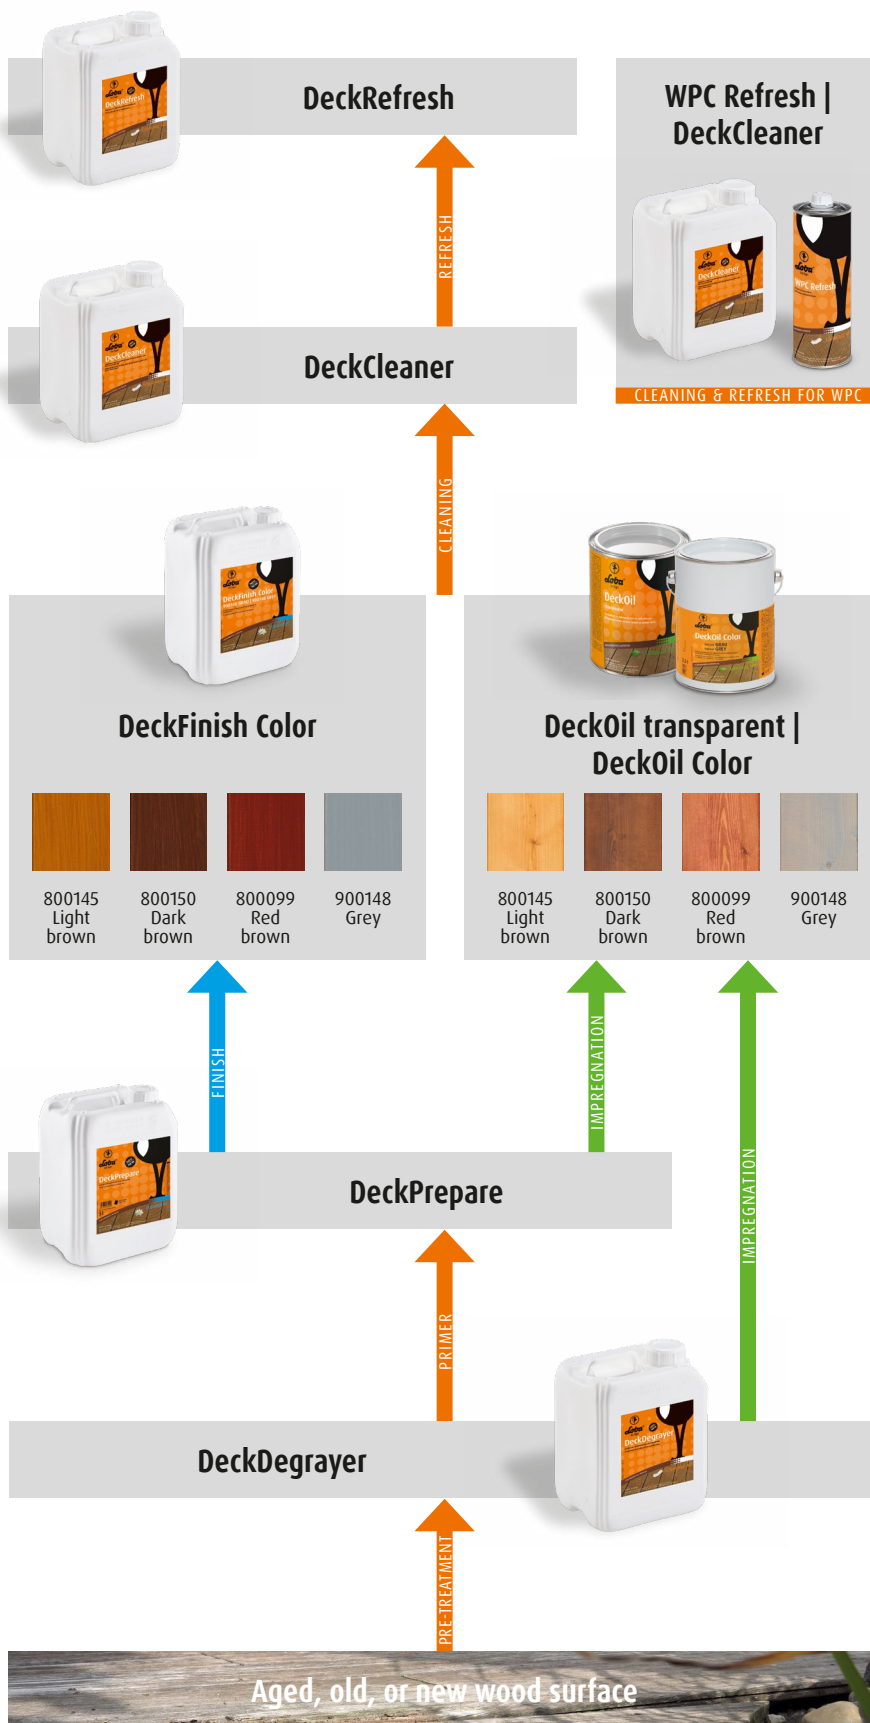

LOBA – Your partner for surface finishing and care

The Deck Line for outdoors.

Very easy to use:

Video tips
for application

Quick refresh

DeckRefresh & WPC Refresh

- Thorough care for wood and WPC (composite) surfaces
- Produces a rich look and intensifies color
- For a simple mid-season refresh

Simple cleaning

DeckCleaner

- Versatile: Can be used for maintenance or intensive cleaning
- Very economical to use
- Ideal for oil-treated and finished wood as well as WPC

Long-lasting finish

DeckFinish Color

- 1K waterbased finish for wooden surfaces
- Especially long-lasting, reliable protection against UV radiation, frost and moisture
- Fast application – short drying time
- Increased walking safety, ideal for work and barefoot areas

DeckOil Transparent | Color

- Penetrating oil for wooden patios and garden furniture
- Deep protection against frost and moisture
- Vibrant color treatment that provides reliable protection against UV radiation
- Good penetration properties
- Increased walking safety, ideal for work and barefoot areas

Perfect preparation

DeckPrepare

- Special primer for outdoor wooden decking
- Delays the weather-related graying of wood
- Strengthens the protective effect of subsequent surface finishes

Intensive special cleaning

DeckDegrayer

- Special cleaner for outdoor wooden surfaces
- Ideal de-graying preparation for follow-up treatment
- For simple, thorough renovation without the use of machinery

Get your outdoor space looking it's best!

Naturally sustainable.

LOBA brings a breath of fresh air to your outdoor space: The eco-friendly Deck Line opens up exciting new design options for your favorite spot in the sun. Whether it be cool gray, natural shades or rich dark brown, the varied color palette of the Deck Line brings your imagination to reality! The LOBA outdoor range stands out thanks to its extremely simple and safe application without any need for machinery. With its superb application properties, the Deck Line is ideal for use by professionals and consumers alike.

Ensure long-lasting protection and graceful beauty for the entire season – with a full carefree range of products from LOBA: With deeply effective pre-treatment, reliable finishing and simple care!

Waterbased finish system: DeckPrepare & DeckFinish Color

Reach the next level: The long-lasting UV and weather protection for your outdoor deck is here! The waterbased coating alternative to traditional decking oils – for a timeless elegant appearance.

Oil system: DeckPrepare & DeckOil Transparent | Color

Fresh colors and reliable protection against sun and rain. Effectively penetrating the wood, this oil brings out the natural beauty of outdoor decks and wooden furniture.

With LOBA, start the deck season well-protected – and enjoy the view!

Weathered deck made from thermally treated ash after de-graying with DeckDegrayer.

Renovated deck made from thermally treated ash after finishing with DeckFinish Color in dark brown.
