Why contractors are enthusiastic about LOBASAND:

- High application safety through recommendations in LOBA's Technical Information
- Long service life, high sanding performance
- Very good price/performance ratio
- User-friendly packaging design with clear product identifier
- Specification of the grain size on the back of the product

Why dealers are convinced of LOBASAND:

- Easy handling due to new packaging design with clear product identifier
- Tested premium quality from LOBA
- LOBASAND print on the back of the product guarantees authenticity
- Very good price/performance ratio
- Consistent and reliable performance

Special feature

LOBASAND sanding products and pads impress with their long service life and high sanding performance. Highly visible label allows for quick reference.

Range of use

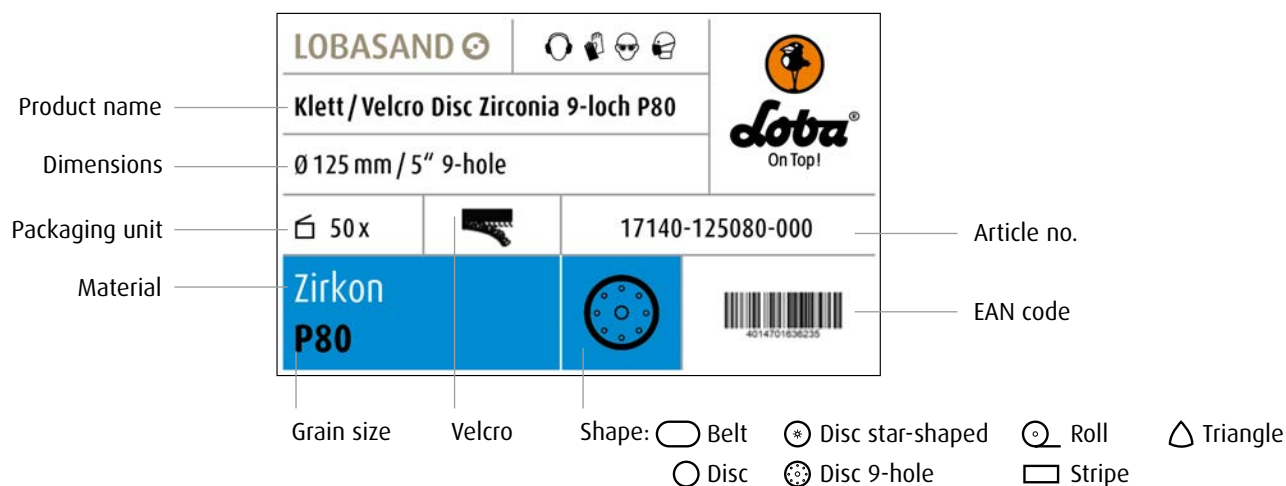

LOBASAND offers you the right products for every situation. Whether new installation or re-sanding existing, coloring, oil or finish: with LOBASAND you are in good hands.

Application

LOBASAND sanding products and pads give you confidence for a successful finished product. In the Technical Information of our finishes and oils you will find recommendations for the suitable LOBASAND products to achieve optimum finished results.

New label

For easy reference, the packaging labels provide all information on the sanding products contained. Product names, dimensions, and quantity are clearly visible. Color coding identifies the material used as well as grain size and pictograms provide information about the product shape and other specific characteristics.

LOBA is always at your side and ensures your success with both advice and action. Our experienced experts are happy to support you individually with your projects. Our competent technical service team is at your disposal quickly, if you need hands-on assistance on site. You can always rely on us!
