

# SportCleaner

MAINTENANCE CLEANER

## Gentle cleaning with the LOBA Sport System

Highly concentrated, pH-neutral cleaner. Quick cleaning, dries without streaks

- Great cleaning power
- A concentrate with a very high yield, 1 l of LOBA SportCleaner makes up to 200 l of ready-to-use cleaning solution
- Material-protecting and pH-neutral
- Environmentally friendly biodegradable cleaner
- Ideal for use with cleaning machines

### Range of use:

Suitable for cleaning all water-resistant sports floor surfaces such as varnished wood, linoleum, PVC and other flooring.

## Technical Data

ART.-NO.		
10178	101	60

<b>pH</b>	6.5
<b>Contents</b>	5 - 15% anionic surfactants, perfumes, LIMONENE, LINALOOL, METHYLCHLOROISOTHIAZOLINONE AND METHYLISOTHIAZOLINONE (3:1), BENZISOTHIAZOLINONE, METHYLISOTHIAZOLINONE
<b>Storage and transportation</b>	36 months of storage stability. No hazardous material according to ADR. Store and transport between +5 to +25°C. Protect from frost.
<b>GISCODE</b>	GU73

## Application

- Shake the contents well.
- Observe general and, if necessary, product-specific occupational health and safety regulations. Further information can be found in the GISCODE-related operating instructions which are available under [www.wingis-online.de](http://www.wingis-online.de).

### THINNER / MIXING

Water.

### APPLICATION TOOL / APPLICATION RATE

LOBA mop. On large areas, use a suitable flat wiper mop or a scourer-vacuum machine. / Depending on the application, add approx. 50 - 100ml to a bucket with 10 l of water, sufficient for 100 m<sup>2</sup>.

### APPLICATION:

Mix the cleaning concentrate with water, using a higher ratio for heavier soiling. Damp-wipe the surface with cleaning solution using a suitable cleaning device.

Using too much water and allowing the product to work for too long can cause swelling of parquet and cork flooring and must therefore be avoided.

The product is also suitable for use in scourer-vacuum machines.

## General guidelines

**Cleaning of tools:** Clean tools and equipment immediately with water.

The information in this document and all other advice and recommendations that we provide to help and assist the applicator are based on previous experience and relate to Spezial conditions. Because of the wide range of possible uses and conditions of application of our products, we do not relieve users from the need to carry out their own trials or to seek technical advice by speaking to the LOBA application engineering department. Observe the floor covering manufacturer's recommendations and the provisions of the current standards. Our liabilities and responsibilities are exclusively in accordance with our Terms and Conditions and are not extended by this information or by our advice.
